Dear Pam Herrmann,

I wish to thank you for the opportunity to present eNETPAY®, a Hamer Enterprises Internet based credit card and electronic check payment processing system recognized globally. The hosted service requires no special software or hardware other than a computer with Internet access interfaced by Softline Financial Inc.

The eNETPAY® System is provided at **NO COST** to the entity and very easy to use. Softline Financial Inc. has successfully interfaced the eNETPAY® secure electronic payment processing features in the Online Utility Billing Software.

eNETPAY® and Softline Financial Inc. empowers the Citizen to access bills online and pay on time conveniently using Visa, MasterCard, Discover Credit Cards as well as Debit card displaying the Visa or Master Card Brand and electronic checks through a secure gateway 24 hours a day, 365 days a year.

Hamer Enterprises transfers funds to the designated bank account daily which are settled in 3 banking days. Only the payer that wishes to use the system pay a convenience fee that offsets **all** costs associated to using eNETPAY®.

Reports are available in real-time with a couple of clicks on-line through the eNETPAY® Reports site. An eNETPAY® password accessed site displays a settlement page for auditing daily transactions for easy reconciliation. Implementation and training can be executed quickly upon approval also at **NO COST**.

The introductory presentation of the eNETPAY® System will provide an overview and how it translates into **hard** dollar and time savings with increased cash flows without costs.

I truly appreciate this opportunity to provide the very best service in secure online payment processing.

Please find an agreement and ACH form accompanying this letter necessary for approval to begin processing with eNETPAY®. Questions or concerns? Call toll free 800-926-3466.

Sincerely,

Tony W
