The Pervious Surface Vendor & Contractor list is just a starting point for homeowners, and is not an inclusive list of every vendor or contractor that supplies, manufacturers, or installs pervious surfaces. This list encompasses vendors and contractors that have worked within Le Sueur County or within the 7 County metro area. Le Sueur County does not endorse vendors and contractors over others.

Remember to obtain estimates. Prices and availability will vary. Ask to see photographs of previous projects and inquire about the prices. Please contact Le Sueur County Environmental Services **PRIOR** to construction of project in order to see local permit requirements.

The design and construction of pervious surfaces will vary and will be appropriate for different design situations (ex: type of project, soil types, and slope).

Questions? Contact Holly Bushman:
